

1. Fill in the blank: Security posture refers to an organization's ability to react to change and manage its defense of _____ and critical assets. 1 / 1 point

- ☒ data
- ☐ domains
- ☐ gaps
- ☐ consequences

✓ Correct

2. Which of the following examples are key focus areas of the security and risk management domain? Select three answers. 0.75 / 1 point

☒ Conduct control testing

✗ This should not be selected
Please review [the video on security domains](#).

☒ Define security goals

✓ Correct

☒ Maintain business continuity

✓ Correct

☒ Follow legal regulations

✓ Correct

3. What term describes an organization's ability to maintain its everyday productivity by establishing risk disaster recovery plans? 1 / 1 point

- ☐ Daily defense
- ☐ Recovery
- ☒ Business continuity
- ☐ Mitigation

✓ Correct

4. What security concept involves all individuals in an organization taking an active role in reducing risk and maintaining security? 1 / 1 point

- ☐ Secure coding
- ☐ Remote services
- ☒ Shared responsibility
- ☐ Employee retention

✓ Correct

5. A security analyst considers ways to enhance data security at their business. They decide to write a proposal to their supervisor that concerns employee authorization and asset management. Which security domain does this scenario describe? 1 / 1 point

- ☐ Security assessment and testing
- ☐ Software development security
- ☐ Communication and network security
- ☒ Identity and access management

✓ Correct

6. What are the key areas of focus in the security assessment and testing domain? Select three answers.

1 / 1 point

- ☐ Use secure coding practices
- ☒ Collect and analyze data

✔ Correct

- ☒ Conduct security control testing

✔ Correct

- ☒ Perform security audits

✔ Correct

7. Fill in the blank: The software development _____ process may involve penetration testing during the deployment and implementation phase of developing software products.

1 / 1 point

- ☒ lifecycle
- ☐ operational
- ☐ positioning
- ☐ access

✔ Correct

8. Which of the following statements accurately describe risk? Select all that apply.

0.75 / 1 point

- ☒ If compromised, a high-risk asset is unlikely to cause financial damage.

✘ This should not be selected
Please review [the video on security threats, risks, and vulnerabilities](#) ↗.

- ☒ Organizations often rate risks at different levels: low, medium, and high.

✔ Correct

- ☒ Website content or published research data are examples of low-risk assets.

✔ Correct

- ☒ If compromised, a medium-risk asset may cause some damage to an organization's finances.

✔ Correct
